DETAILED ACTION

Claim Rejections - 35 USC § 101

35 U.S.C. 101 reads as follows:

Whoever invents or discovers any new and useful process, machine, manufacture, or composition of matter, or any new and useful improvement thereof, may obtain a patent therefor, subject to the conditions and requirements of this title.

Claims 89-106, 155, 158-168 are rejected under 35 U.S.C. 101 because the claimed invention is directed to non-statutory subject matter. There are 4 statutory categories of invention: process of making, article of manufacture, composition of matter and machine. Applicant claims a “computer accessible medium” which is not associated with any one of the statutory categories. In applicant’s disclosure the term “computer accessible medium” and meaning of this term must be gleaned from the evidence of applicant’s disclosure. According to applicant’s disclosure, “computer accessible medium” would include the storage medium of page 6, lines 12- 21 and page 7, lines 4-13 and the transmissible mediums of page 7, lines 24-33 through page 8, line 1.

Allowable Subject Matter

Claims 136-152, 154, 156-157, 169-170 are allowed.

The following is an examiner’s statement of reasons for allowance: The closest prior art of record (Chow et al.) fails to teach or suggest retransmitting executable instructions from the first processing arrangement to the respective second or third processing arrangements when the respective first and second operations terminate prior to a completion of tasks associated with the respective first or second operations.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."

Conclusion

Applicant's amendment necessitated the new ground(s) of rejection presented in this Office action. Accordingly, **THIS ACTION IS MADE FINAL**. See MPEP § 706.07(a). Applicant is reminded of the extension of time policy as set forth in 37 CFR 1.136(a).

A shortened statutory period for reply to this final action is set to expire THREE MONTHS from the mailing date of this action. In the event a first reply is filed within TWO MONTHS of the mailing date of this final action and the advisory action is not mailed until after the end of the THREE-MONTH shortened statutory period, then the shortened statutory period will expire on the date the advisory action is mailed, and any extension fee pursuant to 37 CFR 1.136(a) will be calculated from the mailing date of the advisory action. In no event, however, will the statutory period for reply expire later than SIX MONTHS from the date of this final action.
